

Constant Power LED Emergency Drivers

Versatile, field-installable emergency backup for LED luminaires

- Ideal for adding emergency backup to LED flat panels
- Emergency driver and battery integrated in a single unit
- Constant power design for reliable lumen output
- Illuminated LED test switch allows simple monitoring and required compliance testing
- All are CEC Title 20 compliant for use in California

The HotSpot Constant Power Emergency LED Driver adds field-installable emergency capability to existing LED luminaires. During a power outage, the emergency driver automatically engages, providing a constant source of power to the luminaire's LED modules for at least 90 minutes of reliable emergency illumination. The driver is designed for flexibility, with multiple mounting options, a conduit feed, and an LED illuminated test switch, so it can be easily installed in almost any situation while meeting local emergency lighting requirements.
